School of Art and Design

Foundation Diploma in Art, Design & Media Practice

This one-year diploma is structured to help you develop an artistic portfolio so you can make your next move with confidence. It's also perfect for students who want to explore multiple artistic areas before determining their future path.

BA (Hons) Graphic Design

We offer a highly practical and creative three-year programme where you will gain the confidence to execute your creative vision across all forms of media, recognizing how to create positive social change through the power of visual messaging.

BA (Hons) Fine Art Experimental Media

This three-year Bachelor's programme takes a multidisciplinary approach to the dynamic world of fine art and digital technology, enabling you to gain first-hand knowledge of the world of current and emerging media.

MA Fine Art

This two-year programme is designed to develop advanced practical and theoretical skills. Aimed at graduates, practising artists, and working professionals, it offers exploration of traditional and newly-emerging methods across a wide range of media.

MA Future Design

This two-year Master's programme encourages experimentation with traditional and newly-emerging methods and practice, and through engagement with businesses in the creative sector allows you to see the potential of your own design vision.

School of Business

Foundation Diploma in Business

This one-year diploma develops skills and qualifications in areas of business such as marketing, HR, finance, and event management. It is an ideal preparation for future studies at Bachelor's level.

BA (Hons) International Management

A three-year Bachelor's programme, designed to equip students with a progressive knowledge base, a broad range of skills, and an understanding of the forces and complexities that drive modern international business.

BA (Hons) International Finance and Business Accounting

This three-year Bachelor's programme provides the practical and theoretical skills for students to pursue a wide range of careers in the fields of Accounting, Finance, Business Management and Entrepreneurship.

MSc International Management

The Master's in International Management can be studied over one or two years, designed for working professionals and recent graduates who aspire to a deeper understanding of contemporary management practices, leadership, strategy, marketing, finance and entrepreneurship.

School of Media and IT

BA (Hons) Creative Media Production

This three-year progressive Bachelor's programme is designed to meet the growing demand for media professionals who have a deep understanding of the digital landscape.

BSc (Hons) Computing

This three-year Bachelor's programme has been developed to address the ever-changing needs of IT and business, regardless of how technology may develop over time. Two specialist pathways are available for study: Cybersecurity or Multimedia Development.

MSc Computing

Designed for graduates and working professionals, this Master's degree programme builds on existing knowledge and skills, allowing you to master cutting-edge technologies as well as the critical skills of negotiation and project management. It can be studied over one or two years.
